Objectives

A highly motivated results-oriented professional with deep understanding of deploying advanced computer system topologies with extreme budget limitations. Experienced in identifying, recruiting and motivating the wide variety of talent required to deliver innovative services.

Work Experience

2012-2018 Mail Services LLC

Evaluated and integrated AGILE software process and system virtualization.

2010-2012 Ovalpath

Platform for mobile-device based applications serving the commercial nuclear power market.

Developed HTML5 map annotation for field devices. Acquired by Curtiss-Wright.

2008-2010 Grasshorse

Developed Protomotion, a robot assisted stop motion animation technique.

2007-2008 Vianeta

Platform provider for medical transcription technology and services. Developed training materials for data center Installation and testing. Acquired by Spheris.

2002-2007 CAT Services

Developed Point of Sale systems and multiple low cost embedded control systems.

2002-2002 Pantera Systems

Founder and architect of a distributed database.

2000-2002 Levient

Created first mobile phone remote desktop service. Acquired by FusionOne.

1997-2000 Vertical Networks

Founding team, lead hardware engineering for "Instant Office" telecom product.

1992-1997 CAT Services (Various Consulting)

Top Spin: Engineering recruitment for network startup.

ARISIX: Custom ASIC design studio for NCR.

Rapid City: Router backplane design.

Sky Stream: Custom FPGA design.

SUN Microelectronics: Breadbox project, first 'web appliance' product, became Netra line.

1991-1992 IKOS Systems

Sr. Field Applications Engineer for ASIC simulation product. Received multiple awards.

1989-1991 CAT Services (Various Consulting)

General Magic: Produced evaluation kit for development partners.

National Semiconductor: Custom FPGA and evaluation kit for ISO-Ethernet product.

Hughes Network Systems: Designed first ATM-Ethernet router.

1986-1989 The Engineering Department, Inc.

Design Engineer, Board of Directors 1988-1991.

1985-1986 Lockheed Missiles and Space Company

Design Engineer.

Education: BSEE 1985, Iowa State University
